Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-32, 35-42, 48-49 and 51-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Fearnot (5,100,423).

Fearnot discloses in figure 8, a medical instrument can be used in the treatment of vascular aneurysm having the limitations as recited in the above listed claims, including: a delivery wire 102, an expandable and contracted scaffold 202 positioned at and extended distal beyond the distal end of the delivery wire, where this scaffold can *prevent the escape of embolitic agents from the aneurysm while allowing blood flow through the vessel*, regarding the intended use “*an apparatus for temporarily buttressing a neck of an aneurysm within a vessel wall*”; The statement of intended use and other functional statements have been carefully considered but are deemed not to impose any structure limitations on the claims distinguishable over Fearnot reference which is capable of being used as claimed if one desires to do so, where a catheter 100 defines a lumen which sizes for delivery of the wire therethrough. As to claims 25-28, Fearnot discloses in figure 8, a device having the limitations as described above (see col. 3, lines 40-47, col. 5, lines 23-29). As to claims 29-32, Fearnot discloses in col.5, lines 23-29, the scaffold comprises a braid, a mesh or helically wires which spaced from each other as best view in fig.8. As to claims 35-42, Fearnot discloses the scaffold can have a tapered at proximal and

Art Unit: 3734

distal end, and where the scaffold can detach from the wire (see col. 2, lines 33-38). As to claims 51, 52, Fearnot discloses that the scaffold 202 is expandable upon distal advancement beyond a distal end of the catheter 100, where the proximal end of the scaffold is tapered into the distal end of the delivery wire at best seen in fig. 8.

Response to Arguments

2. Applicant's arguments filed 2/14/2007 have been considered but are moot in view of new ground(s) of rejections. Applicant is asked to please refer to the modified prior art rejections above where examiner addresses applicant's concerns regarding prior art rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
